Electronic Resources
All of these electronic resources are available in the library or through the library web page. To find these and other recommended databases, select Literature from the Databases by Subject menu. All databases may be searched from off-campus locations by following the instructions on the web page.

**Academic Search Premier** – Large academic database covering a wide variety of academic topics including social sciences, humanities, education, engineering, chemistry, medical sciences, and many more.

**JSTOR** – Journal archive with full-text coverage of sixteen literary journals from the first issue to the last few years.

**Literature Resource Center** – Includes literary criticism, author biographies, full-text articles, and book reviews.

**MLA Bibliography** – Scholarly database containing bibliographic records for books & articles pertaining to literature, language, linguistics, and folklore; most appropriate for graduate and faculty level research.

**NetLibrary** – ebooks owned by NSU Libraries.

**Reference Universe** – Indexes the contents of reference books making information in the reference collection more accessible. Provides call numbers for books held by NSU Libraries.
